

Example:

AB 827, Front of the House, Recycling and Organics Collection Containers are required to be available for Public use who purchase goods from their establishments

AB 827 requirements were added to existing AB 341 Mandatory Commercial Recycling (MCR) and AB 1826 Mandatory Organics Recycling (MORe) requirements. The new law, passed in 2019, builds off existing requirements under these two laws. Effective July 1, 2020 MCR and MORe covered businesses must provide recycling and organics containers at front-of-house to collect waste generated by customers from products they purchase and consume on the premises. These containers must be placed adjacent to trash and be visible, easily accessible, and clearly marked. AB 827 is intended to educate and involve consumers in achieving the state's recycling goals by requiring businesses subject to MCR and/or MORe to make recycling and/or organic recycling bins available to customers.
